SOCIAL PROBLEMS

One of the most respected and widely read journals in the social sciences, *Social Problems* presents accessible, relevant, and innovative articles with critical perspectives on contemporary social issues. Covering an extensive array of complex social concerns from race and gender through labor relations and civil rights, *Social Problems* has been an important forum for sociological thought for over five decades.

“Social Problems has long been at the forefront of research and thinking not only about a wide range of social issues, but also about the various lenses through which they are viewed. Methodologically ecumenical and open to critical perspectives, *Social Problems* is like a breath of fresh air!”

BARRIE THORNE,
Professor of Sociology and Professor
and Chair of Gender and Women’s Studies,
University of California, Berkeley
